

**TRAVEL INSTRUCTIONS**

If traveling eastbound on 836, continue east to 395, which merges into the MacArthur Causeway. Cross the MacArthur Causeway, passing the Port of Miami. Stay in the right or center lane as you approach Miami Beach, since 395 ends and becomes 5th Street. (Do not take the Alton Road overpass.) Proceed six blocks (east) to Washington Avenue and turn left (north). The Wolfsonian-FIU is located five blocks to the north, on the northeast corner of Washington Avenue and 10th Street.

If approaching from the north, take I-95 south to 395 east, which merges into the MacArthur Causeway. This exit will be from a left lane (note: the exit before 395 is 836 west). Follow the above instructions once on 395 east.

If approaching from the south, take I-95 north to 395 east. Follow the above instructions once on 395 eastbound.

If approaching from the north on A1A, take Collins Avenue south; turn right on 10th Street, and travel one block west to Washington Avenue.

If you require more specific instructions, please call the museum shop at 305.535.2680.
